In connection with decision denying zone change application made by Pascack Motel, Inc., Town Board members made the following comments:

Councilman Holbrook: Town Board has taken long range view in making this decision. Property in question not zoned residential, but M-1. Fact that it may appear on proposed Master Plan Map as residential does not mean that it will be developed residential, or that we can rezone it. Despite the fact that this petition will be denied, property may well develop as M-1 property rather than residential.

Councilman Frohling: Same as above. Also: State has acquired land in the area for Route 45. Town Board thinks this decision will be for benefit of the township as a whole.

Councilman Brenner: Concurs with above. Decision is in best interests of town.

Councilman Damiani: Concurs. Would not serve community's best interests.

Councilman Holbrook requested that Town Board look into possibility of requiring that home builders furnish performance bonds to guarantee completion of homes on which buyers have made deposits to protect purchasers. He suggested adoption of town ordinance or amendment of subdivision rules. Town Attorney to study and make recommendations.

(529) Councilman Holbrook offered the following resolution:
