RESOLUTION OF THE TOWN BOARD  
ADOPTING LOCAL LAW NO. - 2013

WHEREAS, a proposed local law entitled,

"A LOCAL LAW AMENDING CHAPTER 290 (ZONING) OF THE LOCAL LAWS OF THE TOWN OF CLARKSTOWN WITH RESPECT TO THE NEW CITY HAMLET ZONING AND AMENDING THE TOWN ZONING MAP"

was introduced by Councilperson Hausner, at a Town Board meeting held on April 9, 2013, and

WHEREAS, the Town Board of the Town of Clarkstown by resolution adopted on April 9, 2013, directed that a public hearing be held on May 7, 2013, at 8:00 p.m., or as soon thereafter as possible, relative to such proposed local law, and

WHEREAS, a public hearing was held by the Town Board of the Town of Clarkstown on May 7, 2013, and

WHEREAS, notice of said hearing was duly prepared and published in the Journal News on April 29, 2013, and

WHEREAS, by resolution adopted April 17, 2012, the Town Board referred the proposed local law to the Clarkstown Planning Board for their comment, pursuant to §290-33 of the Zoning Local Law of the Town of Clarkstown, and to the Rockland County Commissioner of Planning, pursuant to General Municipal Law §§239-1 & m, and

WHEREAS, a copy of the proposed local law was placed on the desks of the Supervisor and the Councilpersons at their office

at the Clarkstown Town Hall, 10 Maple Avenue, New City, New York, on April 26, 2013, and

WHEREAS, the Town Board of the Town of Clarkstown has reviewed the Environmental Assessment Form and proposed Negative Declaration, prepared by the Behan Planning, LLC, as agent for the Town Board, pursuant to SEQRA, and which the Board has discussed and considered in making its decision herein, and

WHEREAS, the Rockland County Planning Department provided their written report on June 5, 2012 and made the following recommendations:

1. Page 2 of the Executive Summary, bullet #3, indicates that mixed-use residential/commercial development would be allowed in the H2 and H3 zoning districts.: However, page 3 of Article II, Section 290-7.4C.(b) & (d) and Table F-1 lists that mixed use residence will be permitted in the H2 and H4 zoning districts. This discrepancy must be corrected.

RESPONSE: This is a typo. It has been changed to read "H2 and H4" districts.

2. Page 10, Section 290-7.4 E.(5) provides the frontage build-out percentage requirements. It should be indicated within the heading that this refers to the H3 and H4 zoning districts, as has been done in Sections 290-7.4 E. (3) and (4) in the title heading.

RESPONSE: The heading for this paragraph has been changed to read "Frontage Buildout Percentage in the H3 and H4 Districts" to better clarify this.

3. Table F-1 on page 13 lists senior citizen housing as a special permit use by the Town Board for the H1 and H3 zoning districts. Does the reference to senior citizen housing refer to the Active Adult Residence (AAR) Zone? It is not clear as to what is meant by senior citizen housing.

If it is to allow the AAR floating zone designation in these two New City Hamlet districts, then this is conflictive with Section 7 of the proposed local law, page 4 of 5, which is proposing to amend Chapter 290-7.1 A, by adding the four hamlet districts to the list of ineligible hosts for this floating zone. This must be clarified.

RESPONSE: This reference for the allowance of Senior Citizen Housing is intended to coincide with newly drafted zoning language which the Town of Clarkstown has been working on to promote such uses, especially in hamlet centers. This would allow senior housing to be developed as part of a plan with a diversity of other hamlet uses. It is not intended to authorize the use of the floating AAR, which would not be necessary, and was specifically omitted from these zoning districts.

4. Clubs are listed as a permitted use in the Hamlet Transition (H3) zoning district. Clubs, depending on their type, could be open late at night, and be noisy. As this is a transitional zone to act as a buffer between the commercial activity and the adjacent residential neighborhood, the town should evaluate whether clubs are an appropriate use located within this zoning district. Performance standards should be provided for clubs, similar to the requirements of restaurants, bars, or taverns with outdoor seating if it remains in the H3 zoning district.

RESPONSE: Clubs are defined as *"An organization catering exclusively to members and their guests to promote nonprofit social, educational, athletic, service or recreational objectives, with no vending, merchandising or commercial activities conducted except as required generally for the membership and purposes of the club. Includes private veteran, fraternal, social or health clubs."* and are expected to be less intensive uses than restaurants or bars. It should be noted that the clubs permitted within the H3 district cannot have outdoor facilities, since outdoor clubs are defined as a separate use which is only permitted in the H4 district. For this reason, we do not feel that additional performance standards are necessary. The proposed zoning includes performance standards for restaurants, bars and taverns with outdoor seating in the H3 district, specifically to address the issue of noise and light impacts on adjacent residential areas.

5. Loading docks are listed as a permitted use in Table F-1 in the Hamlet Transition zoning district. This accessory use is usually associated with more industrial or large commercial establishments, can generate noise, and would be incompatible adjacent to a residential use. We recommend that the Town Board allow this accessory use only in the H1 and H4 zoning districts, or at a minimum, as a special permit use so that the location of the loading docks can be evaluated. If loading docks are retained in the H3 zoning district, then more stringent parameters should be incorporated into the zoning requirements, under the "Requirements for Specific Uses," Section 290-7.4G, so as to limit the number of loading dock bays or hours of operation, and to provide specific requirements for lighting, landscaping, fencing, etc.

RESPONSE: This accessory use is not intended to cater to large industrial or commercial operations, but to allow existing businesses in the area to continue to have a small loading area for deliveries, which several rely on. However, a provision has been added to the requirements section which limits new loading areas to 1 space, with provisions for screening and hours of operation as directed by the Planning Board.

6. Family day care is a permitted accessory use in the H2 and H4 zoning districts. However, on page 16, Section 290-7.4G.(4) (f) states "family day care shall be allowed only as an accessory to a single-family detached residence." Table F-1 does not list single-family detached residences as a permitted use in any of the zoning districts. In addition, only the H2 zoning district lists single-family semi-attached residences as a permitted use. In no case is a single family residence permitted in the H4 zoning district. Either the H4 zoning district should be amended to allow single-family residences (which does not appear to be the intent of this district), or the family day care should be deleted as a permitted accessory use in the H4 zoning district.

RESPONSE: While new single family detached residences are not currently (or proposed to be) permitted within the area covered by the H2 and H4 districts, there currently are several single family homes which exist in the area. It is the intent of this

provision to allow family day care to be used as an accessory use to these pre-existing structures, if it is desired.

7. Section 290-7.4 G.(4) (h) [5] Parking, structured above grade, provides criteria for garages located within the H3 zoning district. However, Table F-1 only lists the H1 and H4 zoning districts as allowing above grade parking structures. This discrepancy must be corrected. As indicated in a previous review, above grade parking structures may not be the most ideal transitional use adjacent to a residence, due to lighting, noise, air emissions, and visual impacts, so it may be best to amend the text on page 17 and leave Table F-1 as is.

RESPONSE: The discrepancy between Table F-1 and the text on page 17 has been corrected by removing the specific performance standards for above grade parking structures in the H3 district.

8. The Use Table F-1 only lists pet grooming as a permitted use in the H2 and H4 zoning districts. However, the text in Section 290-7.4 G. (4) (i) lists all four zoning districts as allowing pet grooming. This discrepancy must be corrected.

RESPONSE: The discrepancy between Table F-1 and the text on page 18 has been corrected by removing the references to each of the individual districts in the performance standards.

9. Section 290-7.4 G.(4) (U) on page 18 seems to be duplicative with Section 290-7.4 G.(4) (c) on page 15.

RESPONSE: The duplicative text paragraph at (c) has been removed and relocated to the correct alphabetical location so that it includes all of the proper text including taverns and bars.

10. Sections 290-7.4 H.(1) (c) and K.(1) (b) state " ... all signs existing prior to the date of adoption of this code shall be brought into conformity by September 1, 2012." How will property owners know that this will be required, and is this sufficient time for owners to replace their nonconforming signs with these new signs? Will there be any grants or monetary incentives for the owners to replace the signs? An explanation of how this is to be accomplished should be provided in the text.

RESPONSE: The requirement to have all signs brought into conformity with the new sign standards by September 1, 2012 has been in place since 2007 when the existing New City Hamlet Overlay Design Standards were adopted. This gave existing businesses a 5-year amortization period to come into compliance. This proposed zoning revision incorporates those adopted sign standards as part of the new district standards, allowing them to continue on record as they were while removing the need for the Overlay. There are no known grants or monetary incentives being proposed.

11. Section 290-7.4 H. (1) (f) discusses criteria for electric utilities for new or relocated poles. New electric service for new businesses should be required to be installed underground, and should be so stated.

RESPONSE: A provision has been added which requires underground electric service for new buildings.

12. Section 290-7.4 I. (4) (c) states that a use that has over 200% in excess parking spaces should be configured as public parking, designated as such with signage, and made accessible with sidewalks or other pedestrian access. Since the property owner would be required to provide sidewalks to adjacent properties, will they also be required to provide all of the maintenance for the use of their lot to others? Will any of the in lieu parking fees be used to offset any of their expenses? This should be clarified.

RESPONSE: The property owner would be responsible for maintenance of their own property, unless a separate maintenance agreement was negotiated with the town. It is intended that any specific operational and maintenance questions would be negotiated with the Planning Board prior to site plan approval on an as-needed basis.

13. No specific parking standards for mixed use residence are listed in Table 1-1 or in Section 290-7.4 G. (e). Would parking be based on bedrooms, square footage, or dwelling unit? Footnote #3 refers to the fact that properties converted to mixed use residences must "provide the additional parking needed for the new residential dwelling units" but no specifics are provided for this use. Parking standards for this use must be provided.

RESPONSE: No specific parking standards for mixed-use residences are required because the number of parking spaces needed would be based on the sum of the commercial and residential units involved. The standard parking numbers for multi-family units are intended to be used for any mixed-use or mixed-use conversions. To clarify this, a note has been added to the table.

14. Table 1-1 lists parking requirements for gasoline stations though they are no longer a permitted use in the new zoning districts. As with the drive thru uses, a footnote should be added to the parking table indicating that this parking requirement is for existing uses only.

RESPONSE: This pre-existing use footnote has been broadened to apply to this type of use and has been added to gasoline stations.

15. Sections 290-7.4 I.(8) and 290-7.4 M.(4)(b)[6] describe requirements for access to lots and curb cuts. Limiting curb cuts is a beneficial access management tool and we support the implementation of this concept. Furthermore, it is stated that curb cuts should only be as wide as necessary and curb radiuses should be kept to a minimum. It should however, also be noted in this section, that curb cuts on State or County highways must also comply with width requirements of those agencies and the New York State Fire Prevention Code.

RESPONSE: The notes at these two locations have been added.

16. Section 290-7.4 I.(11)(b) describes how staggered hours parking will be implemented. Is there anything in place if, in the future, the uses that have been deemed to have staggered demand schedules change so that their schedule demand is now the same? This should be addressed.

RESPONSE: Subsection I. (11)(b)[5] explains that the adjusted number of spaces calculated for shared parking is a minimum - the Planning Board has the authority to require more spaces based on considerations such as potential future uses. In reviewing situations where there is a potential use change with insufficient parking, the Planning Board has a number of options available which are outlined in subsection I(3). These include: additional parking be added or arranged; reduction in

the size of the proposed expansion; reduction in the intensity of the proposed use change; and denial of the change of use.

17. Section 290-7.4 I.(12)(a) describes the requirements for landscaping that should be provided for parking areas abutting a public street or right-of-way. In instances where the parking spaces face the roadway, this landscaped buffer should be required instead of just recommended. This landscaping will help to shield the headlights from glaring into the vehicular travel lanes, creating safer conditions, especially onto the State or County roadways.

RESPONSE: This provision was originally included as a requirement. However, in discussions among town officials, it became clear that there were some instances where it would be impractical (or impossible) to impose this as a given standard. Also, because almost all of the properties within the hamlet have already been developed, the Town needed to have a certain amount of design flexibility to negotiate the redevelopment of existing parking lots where there were many space constraints due to existing structures, etc. It is the intent of this section to provide this landscaping buffer in all cases where it is practical in the context of improving the overall landscaping aesthetic throughout the hamlet. For these reasons, we do not feel it is necessary or beneficial to make it a requirement.

and

WHEREAS, the Town Board has determined to adopt this amendment to the Town Code by a majority plus one vote of the Board in contravention of some of the recommendations of the Rockland County Department of Planning, dated June 5, 2012, however, the Town Board believes the majority of the County's recommendations were addressed and clarified and incorporated in the current draft of the local law, and

WHEREAS, by resolution dated April 3, 2013, the Town of Clarkstown Planning Board found that the proposed local law is consistent with the aims and principles embodied in Chapter 290 and the Comprehensive Plan, and introducing allowable mixed use in the affected areas will ensure that a variety of housing options exists within the Town and the Board recommends in favor of the proposed local law, subject to § 290-7.4.C.(1) being deleted, which has been done;

NOW, THEREFORE, be it

RESOLVED, that based upon the EAF prepared by Behan Planning, LLC, acting as agent to the Town Board as lead agency, it is hereby determined that (1) the proposed action is a Type 1 action under SEQRA, and (2) the proposed action shall not have a significant impact on the environment in that it will not directly result in any construction or physical changes to any site within the Town, and be it

FURTHER RESOLVED, that the Town Board has reviewed and hereby accepts the attached Negative Declaration, and directs that same be filed, distributed and published pursuant to 6 NYCRR Part 617.7(b), and be it

FURTHER RESOLVED, that a copy of this resolution be filed with the Rockland County Commissioner of Planning, pursuant to General Municipal Law §239-m(6), and be it

FURTHER RESOLVED, that Local Law No. - 2013 entitled:

"A LOCAL LAW AMENDING CHAPTER 290 (ZONING) OF THE LOCAL LAWS OF THE TOWN OF CLARKSTOWN WITH RESPECT TO THE NEW CITY HAMLET ZONING AND AMENDING THE TOWN ZONING MAP"

is hereby ADOPTED and passed by an affirmative vote of the Town Board of the Town of Clarkstown, the vote for adoption being as follows:

- Alexander J. Gromack, Supervisor . . . .
- Shirley Lasker, Councilwoman . . . . .
- Frank Borelli, Councilman . . . . .
- George A. Hoehmann, Councilman . . . . .
- Stephanie G. Hausner, Councilwoman . .

The Clerk of the Town of Clarkstown was directed to file the local law pursuant to Section 27 of the Municipal Home Rule Law.

Notice of Determination of Non-Significance

Project Number

Date: 4/18/2013

This notice is issued pursuant to Part 617 of the implementing regulations pertaining to Article 8 (State Environmental Quality Review Act) of the Environmental Conservation Law.

The Town of Clarkstown Town Board as lead agency, has determined that the proposed action described below will not have a significant environmental impact and a Draft Impact Statement will not be prepared.

**Name of Action:**

"A Local Law Amending Chapter 290 (Zoning) of the Local Laws of the Town of Clarkstown with respect to the New City Hamlet Zoning and to amend the Town Zoning Map."

**SEQR Status:** Type 1   
Unlisted

**Conditioned Negative Declaration:**  Yes  
 No

**Description of Action:**

The proposed action includes adopting revisions to the Town of Clarkstown Town Code, Chapter 290 Zoning. These revisions include: the creation of four new zoning districts which replace existing zoning districts within the New City hamlet; the elimination of the existing New City Hamlet Overlay District and transferring these regulations into the new zoning districts. Other minor modifications to the language within Chapter 290 are also proposed which are related to the the addition of these new districts.

**Location:** New City Hamlet, Town of Clarkstown, Rockland County, NY

**Reasons Supporting This Determination:**

(See 617.7(a)-(c) for requirements of this determination ; see 617.7(d) for Conditioned Negative Declaration)

The Proposed Action will not directly result in any construction or physical changes to any site within the Town of Clarkstown. The Proposed Action will not directly result in any physical changes to any properties and is not expected to result in any significant adverse impacts on the environment, but rather is expected to have a positive environmental effect on the character of the community by enabling recommendations from the New City Vision Plan which was adopted as an amendment to the Town Comprehensive Plan.

**If Conditioned Negative Declaration**, provide on attachment the specific mitigation measures imposed, and identify comment period (not less than 30 days from date of publication in the ENB)

BOND RESOLUTION OF THE TOWN OF CLARKSTOWN,  
NEW YORK, ADOPTED MAY 7, 2013, AUTHORIZING THE  
CONSTRUCTION OF LIGHTING IMPROVEMENTS ON  
SOUTH MAIN STREET IN CONNECTION WITH THE NEW  
CITY DOWNTOWN REVITALIZATION PROJECT  
(PHASE IIIA), STATING THE ESTIMATED MAXIMUM COST  
THEREOF IS \$1,100,000, APPROPRIATING SAID AMOUNT  
FOR SUCH PURPOSE, AND AUTHORIZING THE ISSUANCE  
OF \$1,100,000 SERIAL BONDS OF SAID TOWN TO FINANCE  
SAID APPROPRIATION

THE TOWN BOARD OF THE TOWN OF CLARKSTOWN, IN THE COUNTY  
OF ROCKLAND, NEW YORK, HEREBY RESOLVES (by the favorable vote of not less than  
two-thirds of all the members of said Town Board) AS FOLLOWS:

Section 1. The Town of Clarkstown, in the County of Rockland, New York  
(herein called the "Town"), is hereby authorized to construct lighting improvements on South  
Main Street in connection with the New City Downtown Revitalization Project (Phase IIIA).  
The estimated maximum cost thereof, including preliminary costs and costs incidental thereto  
and the financing thereof, is \$1,100,000 and said amount is hereby appropriated for such  
purpose. The plan of financing includes the issuance of \$1,100,000 serial bonds of the Town to  
finance said appropriation, and the levy and collection of taxes on all the taxable real property in  
the Town to pay the principal of said bonds and the interest thereon as the same shall become  
due and payable. It is expected that grant funds may be received by the Town in connection with  
the project described herein and any such grant funds are authorized to be applied toward the

cost of said project or redemption of the Town's bonds or notes issued for the project, or to be budgeted as an offset to the taxes to be collected for the payment of the principal of and interest on said bonds or notes.

Section 2. Serial bonds of the Town in the principal amount of \$1,100,000 are hereby authorized to be issued pursuant to the provisions of the Local Finance Law, constituting Chapter 33-a of the Consolidated Laws of the State of New York (herein called the "Law"), to finance said appropriation.

Section 3. The following additional matters are hereby determined and declared:

(a) Such lighting improvements on South Main Street constitute a physical public betterment or improvement classified as a capital asset under generally accepted accounting principles for municipalities and it has been determined by an appropriate engineering, architectural or other professional that the useful life of such improvements is at least fifteen (15) years. The period of probable usefulness applicable to the object or purpose for which said serial bonds are authorized to be issued, within the limitations of Section 11.00 a. 35 of the Law, is therefore hereby determined to be fifteen (15) years.

(b) The proceeds of the bonds herein authorized and any bond anticipation notes issued in anticipation of said bonds may be applied to reimburse the Town for expenditures made after the effective date of this resolution for the purpose for which said bonds are authorized. The foregoing statement of intent with respect to reimbursement is made in conformity with Treasury Regulation Section 1.150-2 of the United States Treasury Department.

(c) The proposed maturity of the bonds authorized by this resolution will exceed five (5) years.

Section 4. Each of the bonds authorized by this resolution and any bond anticipation notes issued in anticipation of the sale of said bonds shall contain the recital of validity as prescribed by Section 52.00 of the Law and said bonds and any notes issued in anticipation of said bonds shall be general obligations of the Town, payable as to both principal and interest by general tax upon all the taxable real property within the Town. The faith and credit of the Town are hereby irrevocably pledged to the punctual payment of the principal of and interest on said bonds and any notes issued in anticipation of the sale of said bonds and provision shall be made annually in the budget of the Town by appropriation for (a) the amortization and redemption of the bonds and any notes in anticipation thereof to mature in such year and (b) the payment of interest to be due and payable in such year.

Section 5. Subject to the provisions of this resolution and of the Law and pursuant to the provisions of Section 21.00 relative to the authorization of bonds with substantially level or declining annual debt service, Section 30.00 relative to the authorization of the issuance of bond anticipation notes and Section 50.00 and Sections 56.00 to 60.00 and Section 168.00 of the Law, the powers and duties of the Town Board relative to authorizing bond anticipation notes and prescribing the terms, form and contents and as to the sale and issuance of the bonds herein authorized, and of any bond anticipation notes issued in anticipation of said bonds, and the renewals of said bond anticipation notes, and as to the execution of agreements for credit enhancements, are hereby delegated to the Supervisor, the chief fiscal officer of the Town.

Section 6. The validity of the bonds authorized by this resolution, and of any notes issued in anticipation of the sale of said bonds, may be contested only if:

- (a) such obligations are authorized for an object or purpose for which the Town is not authorized to expend money, or
- (b) the provisions of law which should be complied with at the date of the publication of such resolution, or a summary thereof, are not substantially complied with,

and an action, suit or proceeding contesting such validity is commenced within twenty days after the date of such publication, or

- (c) such obligations are authorized in violation of the provisions of the constitution.

Section 7. This bond resolution is subject to a permissive referendum and the Town Clerk is hereby authorized and directed, within ten (10) days after the adoption of this resolution, to cause to be published in "THE JOURNAL-NEWS," a newspaper having a general circulation within said Town and hereby designated the official newspaper of the Town for such publication and posted on the sign board of the Town maintained pursuant to the Town Law, a Notice in substantially the following form:
