

TOWN OF CLARKSTOWN POLICE DEPARTMENT

<u>GENERAL ORDER</u> 313	<u>SUBJECT</u> Use of Force	<u>EFFECTIVE DATE</u> 8/12/19	
<u>RESCINDS</u>	<u>AMENDS</u> G.O. 313 02/08/16	<u>CROSS REFERENCE</u> NYS PL Art. 35 G.O. 314	<u>PAGE</u> 1 of 5

I. PURPOSE

The purpose of this policy is to provide Clarkstown Police Officers with guidelines for the use of less-lethal and deadly force.

II. POLICY

It is the policy of the Clarkstown Police Department to value and preserve human life. Officers shall use only the force that is objectively reasonable to effectively bring an incident under control, while protecting the safety of the officer and others. Officers shall use force only when no reasonably effective alternative appears to exist and shall only use the level of force which a reasonable officer would use under the same or similar circumstances.

The decision to use force requires careful attention to the facts and circumstances of each particular case, including, but not limited to, the severity of the crime at issue, whether the suspect poses an immediate threat to the safety of the officer or others, and whether s/he is actively resisting arrest or attempting to evade arrest.

In addition, the reasonableness of a particular use of force must be judged from the perspective of a reasonable officer on the scene, rather than with the 20/20 vision of hindsight. The question is whether the officers' actions are objectively reasonable in light of the facts and circumstances confronting them.

This policy should be reviewed annually and any questions or concerns should be addressed to the officers' immediate supervisor for clarification.

III. DEFINITIONS

DEADLY FORCE: Any force that creates a substantial risk of causing death or serious bodily injury.

WARNING SHOT: Discharge of a firearm for the purpose of compelling compliance from an individual, but not intended to cause physical injury.

LESS-LETHAL FORCE: Any use of force other than that which is considered deadly force, or, that involves physical effort to control, restrain, or overcome the resistance of another.

OBJECTIVELY REASONABLE: The determination that the necessity for using force and the level of force used is based upon the officer's evaluation of the situation on light of the circumstances known to the officer at the time the force is used and upon what a reasonable officer would use under the same or similar situations.

SERIOUS BODILY INJURY: Injury that involves a substantial risk of death, protracted and obvious disfigurement, or extended loss or impairment of the function of a body part or organ.

DE-ESCALATION: Taking action or communicating verbally or non-verbally during a potential force encounter in an attempt to stabilize the situation and reduce the immediacy of the threat so that more time, options, and resources can be called upon to resolve the situation without the use of force or with a reduction in the force necessary. De-escalation may include the use of such techniques as command presence, advisements, warnings, verbal persuasion or tactical repositioning.

EXIGENT CIRCUMSTANCES: Those circumstances that would cause a reasonable person to believe that a particular action is necessary to prevent physical harm to an individual, the destruction of relevant evidence, the escape of a suspect, or some other consequence improperly frustrating legitimate law enforcement efforts.

CHOKE HOLD: A physical maneuver that restricts an individual's ability to breathe for the purposes of incapacitation. This does not include vascular neck restraints (VNR).

IV. PROCEDURES

A. General Provisions

1. Use of physical force should be discontinued when resistance ceases or the when the incident is under control.
2. Physical force shall not be used against individuals in restraints, except as objectively reasonable to prevent their escape or prevent imminent bodily injury to the individual, the officer, or another person. In these situations, only that amount of force necessary to control the situation shall be used.
3. Once the scene is safe and as soon as practical, an officer shall provide appropriate medical care consistent with his or her training to any individual who has visible injuries, complains if being injured, or requests first aid. This may include providing first aid, requesting emergency medical services, and/or arranging for transportation to an emergency medical facility.
4. An officer has a duty to intervene to prevent or stop the use of excessive force by another officer when it is safe and reasonable to do so.
5. All uses of force shall be documented and investigated in accordance with the policies of the Clarkstown Police Department.

B. De-Escalation

1. An officer shall use de-escalation techniques and other alternatives to higher level of force consistent with his or her training whenever possible and appropriate before restoring to force and to reduce the need for force.
2. Whenever possible and when such delay will not compromise the safety of the officer or another and will not result in the destruction of evidence, escape of a suspect, or commission of a crime, an officer shall allow an individual time and opportunity to submit to verbal commands before force is used.

C. Use of Less-Lethal Force

When de-escalation techniques are not effective or appropriate, an officer may consider the use of less-lethal

force to control a non-compliant or actively resistant individual. An officer is authorized to use agency-approved, less lethal force techniques and issued equipment

1. to protect the officer or others from immediate physical harm,
2. to restrain or subdue an individual who is actively resisting or evading arrest, or
3. to bring an unlawful situation safely and effectively under control.

D. Use of Deadly Force

1. An officer is authorized to use deadly force when it is objectively reasonable under the circumstances. Use of deadly force is justified when one or both of the following apply:
 - a. to protect the officer or others from what is reasonably believed to be an immediate thread of death or serious bodily injury
 - b. to prevent the escape of a fleeing subject when the officer has probable cause to believe that the person has committed, or intends to commit a felony involving serious bodily injury or death, and the officer reasonably believes that there is an imminent risk of serious bodily injury or death to the officer or another if the subject is not immediately apprehended
2. Where feasible, the officer shall identify himself or herself as a law enforcement officer and warn of his or her intent to use deadly physical force.
3. Deadly Force Restrictions
 - a. Deadly force should not be used against persons whose actions are threat only to themselves or property.
 - b. Warning shots are prohibited.
 - c. Firearms shall not be discharged at a moving vehicle unless

- i. a person in the vehicle is threatening the officer or another person with deadly force by means other than the vehicle; or
 - ii. the vehicle is operated in a manner deliberately intended to strike an officer or another person, and all other reasonable means of defense have exhausted (or are not present or practical), which includes moving out of the path of the vehicle.
- d. Firearms shall not be discharged from a moving vehicle except in exigent circumstances. In these situations, an officer must have an articulable reason for this use of deadly force.
- e. Choke holds (not including vascular neck restraints) are prohibited unless deadly force is authorized.

E. Training

1. All officers shall receive training, at least annually, on this agency's use of force policy and related legal updates.
2. In addition, training shall be provided on a regular and periodic basis and designed to
 - a. provide techniques for the use of and reinforce the importance of de-escalation;
 - b. simulate actual shooting situations and conditions; and
 - c. enhance officers' discretion and judgement in using less-lethal and deadly force in accordance with the policy.
3. All use-of-force training shall be documented.
